

Champlain Toxicology Confirmation Testing Menu

Amphetamines

Amphetamine	Urine	Oral Fluid
Methamphetamine	Urine	Oral Fluid
Ritalinic Acid	Urine	

Antidepressants - check back as we expand this profile

* Trazodone	Urine	
* Trazodone Metab	Urine	

Anti-Epileptics

Gabapentin	Urine	
Pregabalin	Urine	

Anesthetics

Ketamine	Urine	
Norketamine	Urine	

Barbiturates

Butalbital	Urine	
Phenobarbital	Urine	
Amobarbital	Urine	
Secobarbital	Urine	
Butabarbital	Urine	

Benzodiazepines

Alprazolam	Urine	Oral Fluid
a-Hydroxyalprazolam	Urine	
Clonazepam		Oral Fluid
7-Aminoclonazepam	Urine	
Diazepam	Urine	Oral Fluid
Nordiazepam	Urine	
Midazolam	Urine	Oral Fluid
Lorazepam	Urine	Oral Fluid
Oxazepam	Urine	Oral Fluid
Temazepam	Urine	Oral Fluid

Illicit Drugs

Cocaine		Oral Fluid
Cocaine Metabolite	Urine	Oral Fluid
Heroin Metab	Urine	Oral Fluid
MDMA	Urine	Oral Fluid
PCP	Urine	Oral Fluid

Muscle Relaxants

Carisoprodol	Urine	Oral Fluid
Cyclobenzaprine	Urine	
Meprobamate	Urine	

Opioids

Morphine	Urine	Oral Fluid
Hydromorphone	Urine	Oral Fluid
* Norhydromorphone	Urine	
Codeine	Urine	Oral Fluid
Hydrocodone	Urine	Oral Fluid
* Norhydrocodone	Urine	
* Dihydrocodeine	Urine	
Oxycodone	Urine	Oral Fluid
* Noroxycodone	Urine	
Oxymorphone	Urine	Oral Fluid
* Noroxymorphone	Urine	

Recovery Drugs

Buprenorphine	Urine	Oral Fluid
Norbuprenorphine	Urine	
Methadone	Urine	Oral Fluid
EDDP (Methadone Mebolite)	Urine	
Naloxone	Urine	
*Naltrexone	Urine	

Recreational

Ethyl Glucuronide	Urine	
Ethyl Sulfate	Urine	
THC	Urine	Oral Fluid

Sedative/Hypnotics

Zolpidem	Urine	
----------	-------	--

Synthetic Opioids

Fentanyl	Urine	Oral Fluid
Norfentanyl	Urine	
Meperidine	Urine	
Normeperidine	Urine	
Tapentadol	Urine	
Desmethyltapentadol	Urine	
Tramadol	Urine	Oral Fluid
*Dextromethorphan	Urine	
*Dextrophan	Urine	

The testing menu described here represents definitive (confirmation) testing which is performed by liquid chromatography, LCMSMS. Definitive (confirmation) results are quantitative and identify exactly which drugs are detected and at what levels. Screening tests are also available to test the absence or presence of a drug class.

Champlain Toxicology is a growing lab; check back often to see our progress. Contact the lab at (518) 324-1698 to request a drug be added to CTL's testing menu.
